**New Business Enterprises—Good Year for the Man With the Hoe, and the Owner of Live Stock—Everybody Except the Editor Expects to Have Money to Burn.**

A year ago last Sunday Prescott was burned down. On the ruins has been built a modern city full of life and business prosperity.

Caroline Balsz, six years of age, was run over and killed by a trolley car at Phoenix. The motorman, C. E. Hatford, was exonerated from blame.

D. D. Phillips left on Wednesday for Tonto Basin, where he goes to take charge of the store for the Grand Prize company, says the Jerome Reporter.

In future, guards who have been employed at the territorial prison for more than one year will receive one hundred dollars a month; those in that employ less than a year receive eighty dollars a month.

The Star says the million gallon tank at Tucson, is about one third filled with oil. It takes a day to unload 16 cars of 6,500 gallons capacity. One of these cars emptied into the tank will raise the oil just an inch higher.

The Bulletin says, the Morenci sports came out away head on the ball game between Clifton and Morenci played at the former place on the Fourth of July. It is now known that those who backed the Clifton team lost over \$8000.

J. E. Sturgeon is preparing to put a complete cold storage plant in his Pioneer meat market. It is his intention that his establishment shall not be surpassed by anything in this valley, and he usually accomplishes what he starts in to do.—Tempe News.

The thermometer now is running from 111° to 112° degrees every day, and on account of the dry, healthy atmosphere, there are no sun strokes or horses falling dead, no more inconvenience than it is in the east at 80° or 90°. Such is Arizona.—Phoenix Democrat.

The Fourth at Chloride was a warm number. Swanbeck and Sullivan won the double handed drilling contest, boring a hole 26 inches. Charley Praisor won the single with a score of 15 1/2 inches. The prize fight, balloon ascension and the bull fight were exciting.

August Werner, an old resident of Silver King, where he formerly conducted a brewery, was brought down from that camp a couple of weeks ago and placed in the county hospital. He was suffering with the dropsy, from which he died last Thursday.—Florence Tribune.

A serious shortage in the water supply exists at Bisbee. The water company is making rapid progress in developing more water and have established an auxiliary pumping station near the point of the divide. When the same is ready for operation all fear of future trouble will be arrested.

Bisbee keeps on growing in population and residences are going up on every available spot. Among the

most pretentious now under construction is the very handsome building destined for Mr. Perkins, the Copper Queen company's head architect and builder.—Correspondence of the Prospector.

In the steer tying contest at Prescott on July 6, James Carter got first money, time 54 seconds; Oscar Roberts of Phoenix, second, time 54 1-5 seconds; Haskins, of Mohave county, third, 75 seconds. There were twenty steers bought by the committee for \$140. The steers were not hurt, and were sold by the committee for \$360.

Manuel Guzman killed a jaguar in the Superstition mountains near Bloomerville recently, and brought the skin to town this week. The jaguar is a beautifully spotted black and yellow creature and is exceedingly rare in Arizona, though quite plentiful in some portions of Mexico. The supervisors paid Manuel a bounty of \$20.—Florence.

The terms of all the judges of the Arizona supreme court have expired, save that of Justice Street. Why have they not been reappointed? is the question. The Gazette intimates that a fight is being made against the reappointment of at least two of them, which two it does not say. A few days will undoubtedly determine the mind of the president, as to whether these judges shall succeed themselves or not.—Star.

In the double handed drilling contest at Clifton, on the Fourth, the following results were made: Severa Mazzatta-Giosi Rozea, 20 1/2 in; N. O. Garcia-Celeo Probenio, 19 1/2 in; Andres Rincon-Peneti Gomez, 17 1/2 in; Aug. Contreras-Francisco Ruiz, 15 in; Luis Sias-Tunes Cores, 12 in. The \$75 purse went to Mazzatta and Rozea. Gregoria Martinez was the winner of the single handed prize, \$35, drilling a hole 10 1/2 inches.

A special to the Republican from Buffalo, N. Y., says: The Arizona fruit exhibit is attracting much attention. It arrives in remarkable good condition and keeps surprisingly well. We had the first fresh pears and grapes on exhibition and might have had the first apricots, peaches and apples. There are only two experimental stations in the United States sending more fruit. We have the only dates at the exposition.

The general agent of the Huachuca Water company complains that the 700 people of Tombstone use nearly 300,000 gallons of water per day, whereas they are not entitled by their payments to more than 35,000 gallons. For the present, he adds, until it rains whenever the unjustifiable use of water draws down upon our reservoir we will be compelled, without further notice, to shut off the supply, as it is essential that the reservoir be kept full for fire protection.

The population of Wickenburg is now estimated to be 1,000, and strangers are arriving from Colorado, Montana and other sections of the country every week, and it is only fair to presume that before the advent of 1903 this town will contain 5,000 people and the mining camps surrounding it will have as many more. Wickenburg is located on the line of the S. F. & P. P. railroad, and is admirably situated to command the trade of a wide area of mining country.—Herald.

Following are the scores in the double-handed drilling contest at Jerome: McGowan and Shea drilled 23 1/2 inches in 15 minutes and won the first prize of \$150—the former is from the Big Bug country and the latter is from Bisbee; Burg and King of Bisbee, won the second prize of \$50 by drilling 22 1/2 inches; Verde Queen team drilled 20 1/2 inches; Keeley and McLean drilled 17 1/2 inches. Scores in the single-handed contest were as follows: Dan McGowan of Big Bug, 11 1/2 inches, first

prize, \$75; Mungling and Epplert drilled 7 1/2 inches each; Salanek and Johnson drilled 5 1/2 inches each.

An accident occurred on the ball grounds on the Fourth which deprived Walter McDonald, of Morenci, of his life. Gus Hobbs, deputy sheriff, of Morenci, was called upon to arrest a drunken man for disturbing the peace. The man pulled his knife and showed fight, when the officer struck him with his gun, the concussion exploding a cartridge, the ball striking McDonald in the abdomen, from the effects of which he died a few hours later. Mr. McDonald was an engineer for the D. C. M. Co. at Morenci and had not missed a shift in two years until he laid off to come to the Fourth. He was an exemplary citizen and had many friends, who greatly regret the accident.—Clifton Era.

A special through excursion Pullman started from Phoenix Wednesday morning bound for the Elks' Grand Lodge convention at Milwaukee on the 23rd. After the convention the excursionists will be included in the big excursion of the order from Milwaukee to Buffalo, where the celebration of Elks' day will be one of the events of the fair. Among those who went from Phoenix are Deputy Grand Exalted Ruler Selim Michaelson, head of the order in Arizona, C. H. Hall, George Kane and wife, F. L. Stevens. After the celebration in Buffalo Mr. Michaelson will attend a Masonic meeting in Washington and later take in the Knight Templars' Triennial Conclave in Louisville, Kentucky.

The olive business is certain to become an important industry in the Salt river valley, says the Republican. Until last year many believed that olive growing could not be successfully carried on here. But the crop was very good then and a large quantity of olives were packed and a great deal of oil was expressed. Both the fruit and the oil proved to be of a very fine quality. This year the crop is much heavier. The trees are almost giving way under the load of it and the olives are larger than usual. This is the first year the trees have come into full bearing. Olive growing was not entered upon in this valley as a business. Trees were planted along ditches and for ornamental purposes only, so that the acreage is not very large. None have been planted lately. It is quite probable that within the next few years there will be something of a boom in the olive business.

## ARTICLES OF INCORPORATION

Of Globe-Boston Copper Mining Company.

This is to certify that we, the undersigned, John R. Garrett of Leavenworth, state of Kansas, J. H. Johns of National Home, Leavenworth county, state of Kansas, W. F. Kennedy of Leavenworth, Kansas, and George J. Stoneman of Globe, Gila county, territory of Arizona, do hereby associate ourselves into a company under and by virtue of the provisions of Title XII, Chapter 2 of the laws of the territory of Arizona and amendments thereto, and to that end we do by this our certificate, set forth:

**FIRST**—That the name by which this corporation shall be and is designated and by which it shall be hereafter known is "GLOBE-BOSTON COPPER MINING COMPANY." The names of the incorporators and their places of residence are hereinabove mentioned and set forth, and the principal place of transacting business of said corporation shall be and is at the Town of Globe, county of Gila and territory of Arizona, and it shall have a branch office at the City of Leavenworth, county of Leavenworth and state of Kansas, and at such other places as may be hereafter legally designated as necessary or convenient for any of the purposes of this corporation, and at which places it may transact any and all business of whatever kind or nature incidental to the management of the affairs of this corporation.

**SECOND**—The general nature of the business proposed to be transacted is as follows: The purchase, acquisition and sale of copper and other mines and mining property, and the working, operation and maintenance of the same; the holding, purchase and conveyance of real property useful or convenient for the purposes of its business either in or out of the territory of Arizona, and the mortgaging or leasing thereof; the construction and maintenance of waterworks, reservoirs, dams and aqueducts; the construction of roads and roadways; the erection and maintenance of works, mills, factories, shops and other structures, engaging in and carrying on the business of treating, smelting and refining copper and other ores; manufacturing, buying, selling and dealing in copper ores and other metals and ores and articles made wholly or in part of the same, issuing bonds, debentures or other obligations and securing the same by mortgage of any of the property, rights and franchises of the company; the acquisition, purchase and sale or other disposition of the stocks, bonds or other securities of other companies, and in general doing all acts and transacting all business necessary for and incidental to the objects aforesaid or in any wise connected therewith.

**THIRD**—The amount of capital stock authorized shall be and is two million (2,000,000) shares of the par value of one dollar (\$1.00) per share, and such stock when issued out of the treasury, shall be transferable, fully paid for and thereafter be non-assessable.

**FOURTH**—The time of the commencement of this corporation shall be May 17th, 1901, the date of the filing of these articles of incorporation in the office of the county recorder of Gila county, territory of Arizona, and the termination thereof shall be twenty-five years thereafter.

**FIFTH**—The affairs of this corporation shall be conducted by a board of directors consisting of nine persons who shall be elected by the stockholders on the first Monday in July, 1901, and annually thereafter. At such meeting said board of directors shall elect a president, a vice president, a secretary and a treasurer, and such other officers as may be necessary or convenient for the carrying on of the corporate business. Until such meeting shall be had and until their successors are duly elected and qualified, the officers of this corporation, who are the owners of one share each of the stock herein, shall be and are, president, John R. Garrett; vice president, J. H. Johns; secretary, W. F. Kennedy; treasurer, E. W. Crancer. The first meeting of the stockholders shall be at Leavenworth, state of Kansas, and until such meeting and permanent organization the officers above named shall have power to issue stock and do and perform such other duties as may be necessary or convenient for properly carrying on the business of this corporation.

**SIXTH**—The highest amount of indebtedness or liability, direct or contingent, which this corporation shall in any manner be subjected to or become liable for, is the sum of one hundred thousand dollars (\$100,000).

**SEVENTH**—The private property of stockholders in this corporation shall be exempt from liability for corporate debts.

**EIGHTH**—These articles may be altered or amended at any regular or special meeting of the stockholders called for that purpose in manner to be hereafter provided for, by the constitution and by laws of this corporation, and not inconsistent with the laws of the territory of Arizona; and at such meeting or any other meeting called for any purpose requiring the vote of stock or stockholders of this corporation, the number of shares of stock necessary to be voted for any purpose shall be based upon the number of shares actually sold, without reference to treasury stock, which shall be sold only upon such terms and conditions as may be hereafter provided by the by-laws of this corporation.

In witness whereof we have hereunto set our hands and seals this 17th day of May, A. D. 1901.
